Case Serial No.: U-70673

Operator: Steve Hodges

REPORT NARRATIVE (REFERENCE STIPULATIONS BY NUMBER OR TITLE)

The last inspection was done on March 27, 1992. This inspection noted the locations of the pits, and the amount of road included in the disturbance.

After referring to the last inspection report and the pictures with it, it seems as though there has been no additional disturbance to either site.

Since there has been more than two years of non activity we may want to contact Mr. Hodges and ask him what his intentions are with these sites.
